April 7, 2008

Dear NCSLA Associate Member:

The 2007/2008 NCSLA Best Practices Committee is underway and WE NEED YOUR HELP! The mission of this committee is an important one - to identify recipients of the Best Practices awards (a.k.a. the "Waldings") to be presented at the NCSLA annual conference in Chicago. This initiative provides the NCSLA membership with exemplary programs and practices that may be beneficial in regulating alcoholic beverages in states and communities.

The Best Practices Committee is focusing on three areas: 1) health and safety, 2) mentoring and people development, and 3) social responsibility. If you have a program or initiative that would qualify for one of these categories, please submit your name and program description to Pam Frantz at Pam.Frantz@beamglobal.com by April 18, 2008.

NCSLA is dedicated to providing a forum where members can deliberate and learn about ideas, practices and issues relating to the alcoholic beverage industry and its regulation. This initiative is supportive of NCSLA's purpose by identifying and awarding programs or practices for excellence and innovation in these areas. Please support this association and effort by submitting your program(s) by April 18th.

We want to hear from you!

Sincerely,

Pam Frantz
Director, Industry Affairs
Jim Beam Brands Co.
